The Marba company has been operating since 2007. From the very beginning we have been focused on the production activity. In Poland we possess the first factory producing detergents in tablets. Thanks to many analyses, expert opinions, the work of our chemists and engineers, the quality of the tablets is being kept on the highest international level. We manufacture the detergents under the Private Label according to our own formula as well as entrusted by the client. We have also established our own brand OXO. The modern technology lets us make 3-layers tablets (3-coloured ones) both in the traditional film (insoluble in water) and in the biodegradable one (water-soluble). Since June 2013 we have started the production of washing liquids capsules in the water-soluble foil.
