#### **FOCUS ON YOUR STAR PRODUCT:**

The star product of Resibo is Make-Up Remover Oil. It contains linseed oil, manuka oil, grapeseed oil, abyssinian oil, avocado oil. Linseed oil has an anti-inflammatory and normalizing effects, it soothes skin irritation and accelerates epidermis regeneration. Manuka oil has an antibacterial, anti-inflammatory and anti-allergic effects. Grapeseed oil contains liposoluble vitamins, and is a rich source of linoleic acid and vitamin E – the so-called vitamin of youth. It is high in vitamin B6, lecithin and flavonoids, which make it a perfect antioxidant. Abyssinian oil guarantees intensive moisturising, tightens the skin and reduces wrinkles. The Resibo Make-Up Remover Oil is suitable for all skin types: nourishes and moisturises dry skin, regulates combination skin and oily skin. The microfibre cloth attached to the product gently scrubs the skin.

#### **OTHER INFO**

In striving for balance, Resibo cosmetics are also a combination of innovation and ecology. For several years we focused our efforts on providing our customers with unique high-tech products which would be also fully eco-friendly. At every stage of our product lifecycle, from manufacturing to everyday use, we care for preserving the natural balance of surrounding environment.

The first set of Resibo cosmetics include six products for facial skin care which were released to the market after three years of research and testing. Nowadays, our products are used widely all around the world, including such countries as Australia, Austria, Denmark, France, Thailand and the Caribbean. The large number of satisfied customers is the best evidence of the highest quality of our products.

**OTHER INFO:** DermoFuture Precision are innovative products between cosmetic surgery and cosmetology. Formulas for the products are created in a Swiss laboratory. Institute workers try to meet the needs of all their customers and work all the time to improve the quality of each of the products. Properties and action of all ingredients are properly examined, tested, and classified. Cosmetics that are developed and produced are subject to a very strict final control performed both under home conditions and in highly specialized laboratories in which they undergo all necessary tests
